Please observe the following recommendations for your comfort and well-being.

· We cannot perform waxing services for clients who are taking Accutane or Retin A because they can produce skin sensitivity.

· Allow 24 hours between a waxing service and sunbathing or using a tanning bed. Newly waxed skin may burn easily.

· Due to elevated hormone levels, skin may be sensitive during pregnancy. Bruising or redness may appear, especially in the bikini area.

· If you are having a facial, please schedule the waxing first. Waxing is more effective before the water: steam and moisture of a facial soften the skin.
